Puistonkulma

Jyväskylä, Kauppakatu 18A

Historic landmark property on Jyväskylä’s pedestrian street

Puistonkulma offers your business a prestigious location in the very heart of Jyväskylä – in a historic property that combines visibility, elegance, and functionality. This over 100-year-old national romantic gem is one of the city’s most iconic landmarks.

Versatile premises and facilities

The building is as stunning inside as it is outside, with high windows overlooking the green Kirkkopuisto park. Architect Vilho Penttilä designed Puistonkulma by blending national romantic and classical styles. Originally built to reflect a bank’s stability and status, its architectural elegance still

speaks volumes today.

Development work is underway, making this the perfect time to influence layout decisions and secure exceptional, customized premises. Flexible spaces are suitable for offices, retail, and storage – even a restaurant can be accommodated. Puistonkulma uses green electricity and district heating as part of its commitment to responsible operations.

Area

All city center amenities are just steps away – lunch spots, shops, gyms, and cultural attractions. Tenants can also benefit from Kielo's additional services, such as discounted meeting and sauna facilities in Lutakko, Mattilanniemi, and Ylistönmäki.

Accessibility

Public transport stops are in the same block, a taxi stand is only 50 meters away, and the travel center is within walking distance. An underground parking hall beneath Kirkkopuisto will open in 2024, ensuring easy access by car.
